Summary

Software Engineer specializing in AI development and technical systems management. Expert in building integrated software applications with practical experience in Generative AI (LLMs) and MLOps practices. A graduate of the SDAIA AI Professionals Bootcamp, with a diverse technical background including managing digital advertising operations for the (Kingdom Tower Screen) and network operations (STCS). I integrate core cybersecurity concepts into software development to ensure the delivery of secure and innovative digital solutions.

Experience

- Hewar Group**
Ad Screen Traffic Executive

Saudi Arabia, Riyadh
March 2025 - March 2026

 - Operations Management: Orchestrated digital content for Kingdom Tower Screen and managed real time incident response to ensure 100% system uptime.
 - System Innovation: Developed an automated incident tracking system that optimized reporting accuracy and accelerated technical resolution cycles.
- SDAIA Academy**
Bootcamp for AI Professionals

Saudi Arabia, Riyadh
December 2025 - February 2026

 - AI Engineering: Developed end-to-end applications using Python & FastAPI, implementing RAG pipelines and fine-tuning Deep Learning models with PyTorch.
 - MLOps & Delivery: Managed model lifecycles via CI/CD and MLOps to deploy high-quality AI prototypes addressing real-world challenges.
- Golden Engineering Contracting Company**
Junior System Manager

Saudi Arabia, Jeddah
September 2021 - November 2021

 - Network Operations (STCS): Managed field services and nationwide network operations for STCS Managed Router Services.

Education

- The Technical and Vocational Corporation (TVTC) College of Technology**
Bachelor's Degree in Software Engineering.

Saudi Arabia, Buraydah
January 2022 - February 2024
- GPA: 4.11 /5

Skills

AI & Data:	Software Development:	Operations & Infrastructure:
Generative AI (LLMs), MLOps, Data Analysis, Automated Reporting & Visualization.	Web Development (FastAPI/Python), UI/UX Design, System Management, Secure Development (Encryption).	Digital Advertising Ops (Kingdom Tower), Network Troubleshooting (STCS), Operational Performance Reporting.

Certifications

Membership	AWS Cloud Practitioner	Cybersecurity Analyst	Python Coder
Saudi Council of Engineers	Saudi Digital Academy	Program (CYSA+) TUWAIQ Academy	Kaggle
